

Bulent OZDEMIR

Bulent Ozdemir has a BS degree in Chemical Engineering from Ege University (Turkey).

Until the establishment of MinPro, Mr. Ozdemir has supervised the start up and operations of heap leach and metal recovery trial facilities for the European Nickel PLC Caldag Nickel Project (Turkey) (2005-2011). He has also helped the development of test programs in several other nickel leach projects in Phillipines and Brazil.

Bulent Ozdemir has a wide experience in:

- Developing R&D test work programs for preparation and processing, leach processes and waste management projects
- Implementing and supervising bench and pilot scale testing of these projects
- Preparing "Standard Operating Procedures" and "Scope of Work" for extensive testing programs
- Constructing metallurgical accounting (mass balance) sheets for unit operations

Bulent Ozdemir is the co-founder and Managing Partner of MinPro.
